

The following is a complete list of all HTML block level elements (although "block-level" is not technically defined for elements that are new in HTML5).

<address>

Contact information.

<article> [HTML5](#)

Article content.

<aside> [HTML5](#)

Aside content.

<blockquote>

Long ("block") quotation.

<canvas> [HTML5](#)

Drawing canvas.

<dd>

Definition description.

<div>

Document division.

<dl>

Definition list.

<fieldset>

Field set label.

<figcaption> [HTML5](#)

Figure caption.

<figure> [HTML5](#)

Groups media content with a caption (see [<figcaption>](#)).

<footer> [HTML5](#)

Section or page footer.

<form>

Input form.

<h1>, <h2>, <h3>, <h4>, <h5>, <h6>

Heading levels 1-6.

<header> [HTML5](#)

Section or page header.

<hgroup> [HTML5](#)

Groups header information.

<code><hr></code>	Horizontal rule (dividing line).
<code></code>	List item.
<code><main></code>	Contains the central content unique to this document.
<code><nav></code>	Contains navigation links.
<code><noscript></code>	Content to use if scripting is not supported or turned off.
<code></code>	Ordered list.
<code><output></code> <code>HTML5</code>	Form output.
<code><p></code>	Paragraph.
<code><pre></code>	Preformatted text.
<code><section></code> <code>HTML5</code>	Section of a web page.
<code><table></code>	Table.
<code><tfoot></code>	Table footer.
<code></code>	Unordered list.
<code><video></code> <code>HTML5</code>	Video player.
